Email: salmanfadio5@gmail.com
Mobile: +91-8590070165

SKILLS

Languages:	Java, JavaScript, Python
Frameworks & Libraries:	React.js, Node.js, Flask
Databases:	MySQL, MongoDB
Software Development:	Full-Stack Application Development, REST APIs, OOP
Data Structures & Algorithm:	Problem Solving, Leetcode
Open Source:	MediaWiki (Wikimedia) Contribution Workflow, Git & Gerrit

INTERNSHIP

Thomas and Niyogi	Nov 2024–Mar 2025
SDE Intern	
- Gained practical experience in mobile application development using React Native, with seamless integration of Laravel APIs for efficient data handling. - Tech stacks used: React Native,MERN	
Kudzu Infotech	Aug 2024–Oct 2024
SDE Intern	
- Gained hands-on experience in full-stack development, including frontend and backend integration and database management with MySQL. Created a deep understanding of building applications, optimizing CRUD operations, and ensuring data integrity. - Tech stacks used: MERN,Python,MySQL	

PROJECTS

Scaware – Warehouse Management System:	Jan 2025 – Apr 2025
- Frontend Development: Built a scalable warehouse management interface using React, implementing stock-in, stock-out, and inventory tracking modules with dynamic forms and data tables to manage large product and batch datasets efficiently. - Implemented barcode-based inventory processing using QuaggaJS integration, enabling faster product identification and reducing manual entry errors during stock operations. - Designed role-based access UI and reusable React components to support multiple warehouse roles and ensure secure, consistent interaction across modules. - Tech Stack used: React.js, JavaScript, Supabase - Github Link: https://github.com/salmanfadi/SCA-Warehouse	
My Timesheet – Timesheet Management Application:	Aug 2024 - Oct 2024
- Backend Development: Built a Flask-based backend with RESTful APIs to manage employee timesheets, improving data processing efficiency by 20%. - Database Optimization: Implemented a MySQL database to handle 1,000+ timesheet records with CRUD operations, ensuring seamless data retrieval and updates. - Frontend Enhancement: Improved responsiveness of UI using Bootstrap and JavaScript, allowing users to log, edit, and view timesheet entries with 30% faster interaction - Tech stacks used: MERN,Python,MySQL - GitHub Link: github.com/salmanfadi/timesheet	

CERTIFICATES

Cloud Computing(Nptel)	Sep 2024 – Dec 2024
Data Structure Algorithm using Python(CSE Pathshala)	Mar 2024 – Apr 2024
The Complete Python Bootcamp (Coursera)	Sep 2023 – Dec 2023

EDUCATION

Bachelor of Technology in Computer Science and Engineering Lovely Professional University, Punjab, India CGPA: 7.12	Jun 2022–Jun 2026
Intermediate (12th Grade) Dayapuram Residential School, Kerala Percentage: 83%	Jun 2021–Mar 2022
Matriculation (10th Grade) Dayapuram Residential School, Kerala Percentage: 92%	Jun 2019–Mar 2020
